Inspired by the traditional Vietnamese architectural framework, through a contemporary lens filtered by Architect Truong Quang Vinh, the coffee table serves as an expression of gratitude, assimilation, and continuity of the younger generation towards the culture and heritage of their ancestors.

In the design of the Tân An coffee table, aside from the intricacies of hand-carved details on the tabletop, there is another distinctive focal point: the design of the table legs. This detail is inspired by Vietnamese architecture, with four round legs intertwined with wooden bars, secured by contrasting wooden pegs. Such a structure not only enhances the table's stability but also showcases the craftsmanship and meticulous detailing. We view our designs as architectural works, encompassing functionality, aesthetics, details, and materials within the product.
